LIMITED WARRANTY :

Orange products are reasonably free of defects and when properly handled and fabricated will comply, within reasonable deviations to applicable manufacturing specifications. Clients are advised to inspect product thoroughly prior to installation. Orange warranty will not cover defects and non-compliance from otherwise attributable to any other causes, including without limitation:

- Improper handling/transportation / storage of the products.
- Improper installation and unintended usage of the products.
- Lack of/or improper maintenance of the products.
- Exposure of the products to extreme temperatures.
- Unauthorized alteration to the products.
- Outdoor applications.

- No guarantee and no exchange in any circumstances.
- There can be colour variation in material from different batches. It is ad

OUR PRODUCT RANGE

- CHARCOAL LOUVERS
- PAINTABLE WALL MOLDING
- ASA SHEETS
- MDF COATED SHEETS
- ADHESIVE
- ACOUSTIC PANEL

PLEASE FOLLOW THE INSTALLATION AND MAINTENANCE TIPS :

1. Before purchasing, ensure the product has the Orange Decor sticker to confirm that it is an original Orange product.
2. Upon delivery, check the laminate to ensure it hasn't been damaged during transport or handling before proceeding with installation.
3. Before installation, ensure the substrate (MDF, Plywood, or Particle Board) is of good quality, with a smooth, even surface and consistent thickness.
4. Clean the substrate surface using a cloth, sponge, soft brush, or sandpaper to remove any dust or grease.
5. The laminate can be easily applied using a high-quality acrylic-to-wood adhesive, available in the market.
6. Spread the adhesive evenly on both the Orange laminate and the substrate using a brush, roller, or adhesive spreader.
7. Ensure there is at least a 2mm gap between two pieces of Orange laminate. This will help remove air during the pressing process. Use a soft pinch roller or a standard pressing method, pressing from the center of the panel towards the edges and corners.
8. Apply adequate pressure for 12 to 15 hours to ensure full bonding strength of the Orange Decor Acrylic.
9. Remove the protective film within 7 to 15 days after the installation is complete.

DO'S & DON'T'S :

1. Store the Acrylic at temperatures below 30°C. To avoid cracks and stretch marks, do not store the acrylic sheet in a rolled form.
2. Clean the Acrylic surface with water and a soft, non-abrasive cloth. We recommend using COLIN glass cleaner and a soft microfiber cloth for cleaning.
3. Glossy Acrylic are best suited for vertical applications.
4. Do not use cleaners containing alcohol, solvents, petrol, pinewood, or oil, as these can damage the laminate surface. Additionally, avoid using any cloth other than microfiber.
5. Do not apply thinners to the surface of Orange Decor Acrylic.
6. Do not place hot cookware directly on the Acrylic, as exposure to temperatures above 30°C can damage the surface. This applies to outdoor applications as well.
